

Dual Credit Agreement with Kaskaskia College 2008-2009

Centralia High School has an agreement with Kaskaskia College to offer dual credit for selected courses. These courses are identified as dual credit in this Course Description Guide at the end of the course description. Students enrolled in High School Courses identified for *Dual Credit* are eligible for concurrent enrollment in corresponding Kaskaskia College course work establishing dual enrollment.

Through dual enrollment, students who successfully complete required course outcomes may receive both credit toward high school graduation and college credit, i.e. *Dual Credit*. Grades received in dual credit course work generate an official college transcript and college GPA. Students will earn college credit upon successful completion of the course(s) and all college registration and enrollment requirements.

College staff will conduct course registration at the high school at the beginning of the designated semester. Students will not be assessed any Kaskaskia College fees or tuition costs for courses taught by Centralia High School staff. During the 2007-2008 school year, 587 different Centralia High School students received over \$340,000 worth of college credit (4,865 semester hours) at no cost to the student. This tremendous savings of time and money is made possible through the cooperation of Kaskaskia College and Centralia High School.

Selected programs taught by Kaskaskia College staff may generate Centralia High School graduation credit on a tuition basis.

Visit Kaskaskia College website for more information

[KC College Dual Credit](#)

Centralia High School ensures equal educational opportunities are offered to students regardless of race, color, national origin, age, sex, religion or handicap.
