Health Occupations Career Path

HO029 ORIENTATION TO HEALTH OCCUPATIONS (H300S)

CREDIT: .5

PREREQUISITES: Completed Application (Limit of two classes with 25 students each)

Grade: 11

This course allows students to explore various health careers as they learn medical terminology, human anatomy and physiology. Suggested related class preparation for health careers: Biology, Algebra and Computer Applications.

HO039 HEALTH OCCUPATIONS CORE OF SKILLS (H303)

CREDIT: 2

PREREQUISITES: Completed Application (Limit of two classes with 20 students each)

Grade: 12

This course includes classroom, laboratory, and clinical experiences. Basic nurse assistant skills are presented and clinical experience in nursing homes and hospital health care is provided to the student under the direct supervision of the health occupations instructor. To participate in clinicals students must provide a current TB skin test, one pair of scrubs (\$35), white shoes, name tag and a criminal background check (\$15). Students who successfully complete 80 hours of theory and 40 hours of clinical are eligible to take the state CNA exam (student cost for CNA exam \$50). Clinicals consist of a 10:1 student to instructor ratio. Students not in clinicals will rotate to various health care facilities in the community. *(Students who complete HO039 may receive 7 hours dual credit for NAST 160 from Kaskaskia College)*

***Applications may be picked up from your counselor**
